

Hi, again! :-)

I am sorry to report that progress has been almost non-existent, due to various issues that have cropped up. However, I've used this time to complete and improve my documentation.

And, as a workaround for anyone who wants to get started right away ... If you are willing to wait a minimum of 6 weeks before moving, you can start out as a consumer customer and transfer into the mobility program after a minimum of 6 weeks.

Additionally, the service plans that will be offered in the mobile program have been determined:

Spaceway 3 Mobile Service Plans

Service Plan	Mobile	Bus	Total		Download		Upload	
Hr	Anytime							
Access 100	\$ 75.99		5 GB	5 GB	10 GB	5 Mbps		1
Access 200	\$ 99.99		20 GB	5 GB	25 GB	5 Mbps		1

Jupiter 17 Mobile Service Plans

Service Plan	Mobile	Bus	Total		Download		Upload	
Hr	Anytime							
Select 100	\$ 99.99		20 GB	10 GB	30 GB	10 Mbps		1
Select 200	\$129.99		30 GB	10 GB	40 GB	10 Mbps		2
Select 300	\$169.99		40 GB	10 GB	50 GB	10 Mbps		2
Select 400	\$199.99		50 GB	10 GB	60 GB	15 Mbps		2

The cost of the HughesNet hardware is still being determined.

So, that's the latest. I'll send another update there is something to report.

Take care,
Barb
