

Hi, again! :-)

Everything is essentially the same as it was, while Hughes finalizes the details of the mobile service.

Hughes has indicated that anyone wanting the mobile service can be mobilized now and not officially transferred to the VAR who is handling the mobile accounts until everything has been finalized.

This means you can buy your equipment at the lower consumer/residential cost and pay the lower consumer service rates until the transfer happens.

And, as always, if you only want to move 2 or 3 times a year, you can remain a residential customer and we'll get your account "relocated" with a phone call from me.

*Take care,*

*Barb*
